## Outlook

DICE remains optimistic about its future growth. The Board of Directors of Dice Ready-to-Wear has agreed to rent a factory of about 45,000 square meters from Misr Helwan Spinning and Weaving Company. In a statement to the Egypt Stock Exchange, the company stated that the company won the lease contract for a period of 9 years, with a monthly rental value of 774.5 thousand pounds, after approving the financial and technical offer submitted by Dice, it indicated that the factory is expected to gradually increase Dice's production capacity by approximately 30% of the current capacity, and to allocate that increase for export. It is expected that the production of this factory will begin after re-equipping for production in March 2024, with local production of Dice brand first and then after that for export products.

It pointed out that this is in line with the state's policy of encouraging the private sector to export, provide foreign currency, and contribute to reducing the unemployment rate by providing new job opportunities.

Overall, DICE aims to reduce client concentration by attracting new clients; scaling its retail platform to improve revenue mix; and utilizing its dyeing and printing capacities to enhance profit margins.
